ODS DIAMOND

CREATING A BETTER PLANET

About

ODS Diamond which has a world-leading technology in Resin Polishing was founded in October 2004. ODS started with electron display technology and have researched in electronic application technology and developed new products (the Resin Fickert) for Quartz Stone polishing.

ODS's current flagship products – Resin Fickerts – are excellent in the three-dimensional effect of the chip, outstanding in surface texture and luster. All of its products are free from the shadow, scratching, and hazing.

ODS can provide the technological supports for your company with its long experience and deep expertise in Quartz Stone Polishing. Once you have a business with us, we'd like to visit your company regularly to provide the technological support in person.
